# (Serious) Time for Time Series

*It's time to take time series seriously!*

AMLD Switzerland 2022

# About us

Marysia Winkels

Data Science Educator

GoDataDriven

James Hayward

Data Science Educator

GoDataDriven

# GoDataDriven

## Organize

Data and AI Strategy Execution

## Build

Data Platforms and AI Applications

## Train

Data and AI Learning Journeys

## Manage

Managed Data Platform and AI Services

## Democratize

Data Democratization

## Solve

Turn-Key Cloud & Data Solutions

# Trusted by global industry leaders

GO  
DATA  
DRIVEN

# GoDataDriven Academy

## A variety of courses

- Data Science with Python (introductory & advanced)
- Deep Learning
- Data Visualisation & Storytelling
- Analytics Translation
- Time Series
- Machine Learning Explainability

# About you!

# Agenda

## Tutorial

1. Introduction
2. Time series analysis with Pandas
3. Seasonality modeling
4. Challenge
5. Closing remarks

*10 minute break halfway through!*

# Workshop content

## Things we will cover

- Introduction to Time Series Analysis with Pandas
- Modelling Time Series data & Seasonality

## What this workshop is *not* about

- Deep Learning
- Prophet (or other Time Series libraries)

# Material

gdd.li/[time-series-github](https://github.com/gddli/time-series)

gdd.li/[time-series-binder](https://mybinder.org/v2/gh/gddli/time-series)

# Time Series Analysis with Pandas

# Seasonality Modeling

GO DATA  
DRIVEN

# (Serious) Time for Time Series

*It's time to take time series seriously!*

AML D Switzerland 2022

# Workshop Summary

## *Introduction to Time Series Analysis*

- Timestamps
- Time-based aggregations
- Creating time-based features
- Smoothing Time Series data

## *Seasonality Modelling*

- Time Series decomposition
- Modelling Time Series data
- Engineering seasonal features
- Outlier/anomaly detection
- Model evaluation

**Unpacking the "Black Box":  
How to Interpret your Machine  
Learning Model?**

14:00-18:00, March 27 @ 2ABC

**The Data & AI Maturity Journey**

13:30-17:30, March 28 @ 1A

# GoDataDriven Academy

A variety of courses

- Data Science with Python  
(introductory & advanced)
- Deep Learning
- Data Visualisation & Storytelling
- Analytics Translation
- Time Series
- Machine Learning Explainability

The banner features the Python logo in the top left corner. Below it, the text 'DATA SCIENCE LEARNING JOURNEY' is displayed in a smaller, light blue font. The main title 'Practical Time Series Analysis & Forecasting Training' is written in large, bold, white letters. At the bottom, there are two dark blue rounded rectangular buttons: one labeled 'English' and another labeled '2 days'.
